

### Remarks

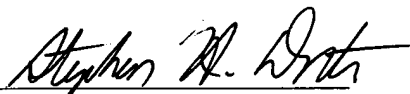

Claims 1, 10 and 11 have been amended such that claims 10 and 11 now properly depend from claim 1. Specifically, “-NH<sub>2</sub>” has been added to claim 1 such that claim 11 properly depends from claim 1. In addition, the term “alkenylalkylaminoalkyl” has been deleted in favor of the correct term “alkenylaminoalkyl” such that claim 11 properly depends from claim 1, i.e. “mono-C<sub>2-4</sub>-alkenylamino-C<sub>1-4</sub>-alkyl” and “di-C<sub>2-4</sub>-alkenylamino-C<sub>1-4</sub>-alkyl” are subgroups of this substituent. Also, the definitions for “R<sup>d</sup>” and R<sup>e</sup>” have been added to claim 1 and deleted from dependent claim 10. Next, “5-7 membered heterocyclyl-alkyl” has been amended to “5-8 membered heterocyclyl-alkyl” so that claim 11 properly depends from claim 1. Finally, the claims have been amended to reflect the correct spelling of “2,2’-dimethylpropylaminomethyl”.

Consideration and entry of this amendment prior to issuance of a patent are respectfully requested. Should the Examiner believe a discussion of this matter would be helpful, he is invited to telephone the undersigned directly at (312) 913-0001.

Respectfully submitted,  
**McDonnell Boehnen Hulbert & Berghoff LLP**
